

CREATED FOR LISTENING ENJOYMENT

A new wave of sound has arrived - The ATON™ Storm Series Speakers. Voiced in our sound labs by musicians with years of critical listening experience, all speakers were crafted for pure listening enjoyment. Each Storm Series model was tested against comparable models built by the industry's leading competitors. ATON's speakers possessed a consistent step up in sound quality, setting a new benchmark for ceiling speaker performance.

UNPARALLELED PERFORMANCE

All ceiling models feature 1" pivoting tweeters, excellent off-axis frequency response, high power handling, custom driver materials, and network components that provide the best price/performance ratio in the industry.

BUILT TO BLEND IN

Storm Series Speakers are designed to blend in with any home environment. Each model features flat, unobtrusive profiles, paintable mesh grills and sleek perimeter trims.

All Storm Series models are weather/moisture resistant and can be installed outdoors or in bathrooms and saunas. All models also carry a limited lifetime warranty, ensuring years of listening enjoyment. Pre-construction brackets are available for easy, reliable installation.

Model A81C A speaker designed for those who love to just crank it up! Perfect for Pop, Rock and Rap music, this speaker features low, thumping bass, ultra-smooth mids and open, airy highs.

Model A82C An ideal choice for audio enthusiasts who desire the best performance at the best price point. With features like deep bass, detailed mids, excellent imaging and superior off-axis response, this speaker becomes the life of the party!

Model A62ST Delivers the same exceptional sound of a pair of stereo ceiling models in a single location speaker. Ideal for bathrooms, walk-in closets, hallways and other locations where space is limited and two separate speakers are not practical. Dual 3/4" aluminum tweeters are positioned at opposing angles to provide exceptional off-axis high frequency dispersion and detail.

Model A60C An entry level ceiling speaker that excels in background music applications. A great choice for bathrooms, hallways, offices, children's bedrooms, and other areas of the home where basic audio distribution is required.

Model A61C The ceiling speaker of choice for music lovers. Features like dynamic bass response, smooth midrange and accurate imaging, all at a great price point, make this model a perfect solution for lively whole-house audio.

Model A62C An excellent choice for hi-performance whole house audio or surround sound applications. Tight bass, detailed mids and superb imaging reproduce music and home theater audio as it was intended to be heard.

Model A63C The audiophile's choice for in-ceiling audio. Superb low frequency reproduction, refined midrange and transparent highs come together to provide an exceptional listening experience.

CEILING SPEAKER FEATURES
